

Gigabit performance in a managed PCI card for desktop computers

Unprecedented speed is now available over your existing network cabling! Built to run the fastest video, publishing, and database network applications, the Instant Gigabit Network Adapter is a high performance network adapter for PCI local bus computers. Boasting an incredible maximum data throughput of 1000 megabits-per-second in full duplex mode, it includes a 10BaseT/100BaseTX/1000BaseTX port, which means that you can begin integrating Gigabit now—even if you don't plan on upgrading to a 1000Mbps network right away.

The Instant Gigabit Network Adapter is Windows Plug-and-Play compatible. Wake-On-LAN support is built in—you can wake up your workstations from anywhere on the network! Built-in support for the widest range of PCI mother-boards, networking hardware, and software means you don't have to worry about compatibility.

Easy to Use Plug-and-Play 10/100/1000 PCI Network Card

Connects to 10Mbps, 100Mbps, and 1000Mbps Ethernet networks

Full Duplex capability at speeds up to 1000Mbps

Power on your PC from anywhere on the network with Wake-On-Lan management
