- PCMCIA Card Works With Virtually All Notebook PCs
- Free Technical Support—24 Hours a Day, 7 Days a Week, Toll-Free US Calls
- 1-Year Limited Warranty

*Instant Wireless™ Series*

## Network PC Card

**Connect Your Notebook to  
a Wireless Network**

**A**ttention Notebook PC Users: Put the “mobile” back into mobile computing! Whether you’re at your desk or in the boardroom, the Linksys Instant Wireless Network PC Card allows you to share printers, files, and other resources anywhere within your LAN infrastructure to increase your productivity and keep you “in touch.”

The Network PC Card now has a new higher-powered antenna that provides greater ranges than ever. The increased sensitivity helps filter out interference and “noise” to keep your signal clear. Improved error correction in the chipset keeps you operating at higher transmission rates for longer distances. And, since you only need one Type II or III PCMCIA slot, you’re free to use your other slots for additional accessories.

Ready to run in Type II or III PCMCIA-equipped notebook PCs running Windows 98, Millennium, NT 4.0, 2000, and XP, the Instant Wireless Network PC Card from Linksys is truly a “must-have” for all notebook PC users.

## Features

- 11 Mbps High-Speed Data Transfer Rate with Automatic Fallback
- Plug-and-Play Operation Provides Easy Setup
- 802.11b, DSSS, 2.4GHz-Compliant
- Supports up to 128-Bit WEP Encryption Security
- Compatible with Virtually All Major Network Operating Systems
- Free Driver Upgrades via Web
- Integrated Equalizer Recovers Weak Signals and Enhances Sensitivity
- Sturdy Metal Design with Integrated Antenna
- Works with All Standard Internet Applications
- Clear Channel Assessment Increases Network Throughput
- Hardware Buffer Chaining Provides High Performance While Reading and Writing Buffers
