

Send live video to a web browser anywhere in the world!

"The Linksys Compact Wireless-G Internet Video Camera sends live video through the Internet to a web browser anywhere in the world! This compact, self-contained unit lets you keep track of your home, your kids, your workplace -- whatever's important to you.

Unlike standard "web cams" that require an attached PC, the Internet Video Camera contains

its own web server, so it can connect directly to a network, either over Wireless-G (802.11g) networking, or over 10/100 Ethernet cable. The advanced MPEG-4 video compression produces a high-quality, high-framerate, up to 320x240 video stream."

The Compact Internet Video Camera's unique form-factor and wireless connectivity allows you to mount it on a wall nearly anywhere, or slip it into its included stand for desktop use. Once it's connected to your home network, you can "see what it sees" from any Windows-based PC in the house, while the video stream is secured from the outside world, hidden behind your Router. If you want the video to be visible from outside your home network, you can open an appropriate port on the Router, and then create password protected accounts to manage access to the camera, or leave it wide open for the world to see. The SoloLink domain service (trial sign-up included) lets you access your camera using an easy-to-remember "name", even if your home Internet connection uses a dynamic IP address.

"You can also turn on Security Mode, which tells the camera to send a message with a short video attached to up to three email addresses whenever it detects motion in its field of view. You can then log onto the live video stream if the situation warrants. The included Viewer & Recorder utility lets you record the audio/video stream to your local hard drive, "live" or on a predetermined schedule.

Let the Linksys Compact Wireless-G Internet Video Camera help you keep tabs on your world."

Sends high-quality live video to your network wirelessly -- viewable from Windows PCs anywhere

Built-in stand-alone web server, no PC necessary

Security Mode automatically sends email alerts with video clips upon motion detection

Supports up to four simultaneous remote users

Compact Wireless-G Internet Video Camera

Compact Wireless-G Internet Video Camera

Features

- Integrated web server - view from most web browsers
- Access the camera from anywhere in the world via the Internet (Windows based PCs only)
- Supports enhanced MPEG-4 compression
- View video from your Wireless-G or wired ethernet network
- Includes easy to use Linksys MultiViewer & Recorder utility with Snapshot feature
- Motion Detection and E-mail notification
- Create a database for user authentication
- Supports resolution of up to 320x240 pixels
- Time Stamp & Text Overlay
- Connect up to 4 users simultaneously
- Supports Linksys SoloLink DDNS Service for dynamic IP connection
- Multi-platform support - TCP/IP, SMTP (E-Mail), HTTP, DHCP
- Windows-based Setup Wizard for easy setup
- WEP encryption and WPA-Pre-shared key

Specifications

Model	WVC54GC
Standards	IEEE 802.11b, IEEE 802.11g, IEEE 802.3, IEEE 802.3u
Ports	One 10/100 Auto Crossover (MDI/MDI-X) port, Power port
Protocols	TCP/IP, HTTP, DHCP, NTP, SMTP, UPnP (Discovery only)
Buttons	One Reset Button
Cabling Type	RJ-45
Indicators	1 x LED
Security features	User Authentication, WEP/WPA-PSK, Motion Detection
WEP key bits	64/128 Bit
Image Sensor	CMOS
Lens	Fixed Focus
Resolution	320x240, 160x128
Effective Focus	3mm
Sensitivity	1.0V/Lux-sec
Field of View	61.48 degrees
Compression Algorithm	MPEG-4
Record File Format	ASF
Brightness	Auto/Manual Adjustment

Environmental

Dimensions (W x H x D)	3.54" x 4.02" x 1.46" 90 mm x 102 mm x 37 mm
Unit Weight	0.29 lb. (0.13 kg)
Power	External, 5V DC
Certification	FCC
Operating Temp.	0° C to 40° C (32° F to 104° F)
Storage Temp.	-10° C to 70° C (14° F to 158° F)
Operating Humidity	10% to 85% Non-Condensing
Storage Humidity	5% to 90% Non-Condensing

Linksys products are available in more than 50 countries, supported by 12 Linksys Regional Offices throughout the world. For a complete list of local Linksys Sales and Technical Support contacts, visit our Worldwide Web Site at www.linksys.com.

Minimum Requirements

- PC with 550MHz or Faster Processor
- 64 MB RAM Memory
- Internet Explorer 5.5 or higher for Web Viewing and Web-based Configuration
- Cable/DSL connection for Internet viewing
- Active-X 8.0 or higher
- CD-ROM Drive
- Windows Media Player 7 or higher
- Wired or Wireless Network Adapter with TCP/IP Protocol Installed
- Windows 98SE/ME/2000/XP

Package Contents

- Compact Wireless-G Internet Video Camera
- Camera Stand/Wallmount
- Power Adapter
- Ethernet Network Cable
- Setup CD-ROM with User Guide
- User Guide on CD
- DDNS Installation Guide
- SoloLink DDNS Free Trial Card
- Registration Card
