

A Wireless Network In Your Pocket!

The Linksys Wireless-G Travel Router with SpeedBooster lets you carry a wireless network wherever you go. There's a built-in access point, which lets you connect SpeedBooster-enhanced and regular Wireless-G and Wireless-B devices to the network. There's also an Ethernet port to connect your wired PC. The Router function ties it together and lets your PCs share a wired or wireless Internet connection.

The travel-friendly form factor includes a built-in power supply and antenna -- it even comes with a travel case! Create a temporary, personal, wireless access "bubble" in your hotel room. Just plug the Router directly into the wall, and connect the hotel's fast Internet service cable. Then use the Router's push button setup feature to easily connect and configure your wireless devices -- push the button on the Router and on your other SecureEasySetup-enabled wireless device to automatically create an encryption-secured wireless connection. You can also create a shared-access bubble attached to a wireless Internet connection to use multiple devices on a single hotspot account in a coffee shop or airport lounge.

To protect your data and privacy, the Wireless-G Broadband Router can encode all wireless transmissions with WEP or extra-strength WPA Personal encryption. The Router can serve as a DHCP Server, has a powerful SPI firewall to protect your PCs against intruders and most known Internet attacks, and supports VPN pass-through. Configuration is a snap with the web browser-based configuration utility.

The Linksys Wireless-G Travel Router with SpeedBooster lets you bring the convenience of wireless networking everywhere you go.

Shares a wired or wireless Internet connection with SpeedBooster, Wireless-G and -B devices, and an Ethernet wired PC

Create temporary, personal, wireless access in your hotel room or a coffee shop hotspot -- pushbutton easy

Travel-friendly design with built-in power supply and antenna

High security: Wi-Fi Protected Access™ (WPA), wireless MAC address filtering, powerful SPI firewall

Product Data

Wireless-G

Travel Router with SpeedBooster

Features

- Complies with 802.11g and 802.11b (2.4GHz) Standards
- High security with Wi-Fi Protected Access™ (WPA/WPA2 Personal)
- SpeedBooster technology increases wireless performance by up to 35%
- Supports universal bridging
- Compact travel size router with built-in antenna and power adapter
- Supports Secure Easy Setup

Specifications

Model Number	WTR54GS
Standards	IEEE 802.3, IEEE 802.3u, IEEE 802.11b, IEEE 802.11g
Ports/Buttons	Internet: One 10/100 RJ-45 Port LAN: One 10/100 RJ-45 Port One Power slide One Reset Button, One SES Button
Cabling Type	UTP CAT 5
LEDs	Power, Wireless, Internet, Ethernet
Transmit Power	802.11g: 12.5 dBm Typical @Normal Temp Range (+/-1.5dBm); 802.11b: 16.5dBm@Normal Temp Range (+/-1.5dBm)
Receiver Sensitivity	11Mbps @ 90 dBm; 54Mbps @ -65dBm typical
UPnP able/cert	able
Security features	Stateful Packet Inspection (SPI) Firewall, Internet Policy
WEP key bits	Wi-Fi Protected Access™ (WPA), WEP, Wireless MAC Filtering

Environmental

Dimensions W x H x D	2.87" x 4.21" x 1.22" (73 mm x 107 mm x 31 mm)
Weight	5.22 oz. (0.148 kg)
Power	Built-in 100~240v AC
Certifications	FCC, IC-03, Wi-Fi (802.11b, 802.11g), WPA
Operating Temp.	32°F to 104F (0°C to 40°C)
Storage Temp.	-4°F to 158°F (-20°C to 70°C)
Operating Humidity	20~85% Non-condensing
Storage Humidity	10~90% Non-condensing
Warranty	3-Years
