- A. Connect the Adapter to an available USB port on your computer, and then insert the Installation CD into your computer's CD-ROM drive.
- B. The computer's operating system automatically detects the Adapter and asks you how to begin the driver installation. For Windows XP or 2000, select **Install the software automatically**. For Windows Vista, select **Locate and install driver software**. For Mac OSX, click **Network Preferences**.
- C. The operating system installs the driver. If a dialog box appears before the installation is complete, refer to the User Guide on the CD for detailed instructions.

Our packaging and documents are made from minimum 80% recycled content and printed with vegetable-based ink.

For additional information or troubleshooting help, refer to the User Guide on the CD-ROM. Additional support is also available by phone or online.
