

Quick Installation

For Windows XP *ONLY*

This Quick Installation is meant to help you install the product quickly and easily. For detailed instructions on installation, configuration, and further setup options, please consult the User Guide.

Instant Wireless® Series

Wireless-B Notebook Adapter

WPC11 ver. 4

Package Contents

- One Setup Wizard CD-ROM with User Guide (1)
- One Wireless-B Notebook Adapter (2)
- One Quick Installation guide
- One Registration Card

1 Connecting the Notebook Adapter

- A. Turn off your notebook PC.
- B. Locate an available PC Card slot on your notebook PC.
- C. Insert the Adapter with the label side facing up, so the Adapter fits snugly in the PC Card slot.

- D. Restart your notebook PC.

2 Driver Installation and Configuration for Windows XP

- A. Windows XP will automatically detect the Adapter. Insert the Setup CD-ROM into your CD-ROM drive. Click the radio button next to **Install the software automatically (Recommended)**. Then click **Next**.

- B. The following screen mentions Windows XP compatibility. The Adapter has been tested and is compatible with Windows XP. Click the **Continue Anyway** button to continue.

- C. When Windows has finished installing the driver, click **Finish**.

Windows XP users: The hardware installation of the Wireless-B Notebook Adapter is complete.

Proceed to Step 2.

Continued on back

D. Windows XP has a built-in configuration tool. After installing the Adapter, the Windows XP Wireless Zero Configuration icon will appear in your computer's system tray. Double-click the icon.

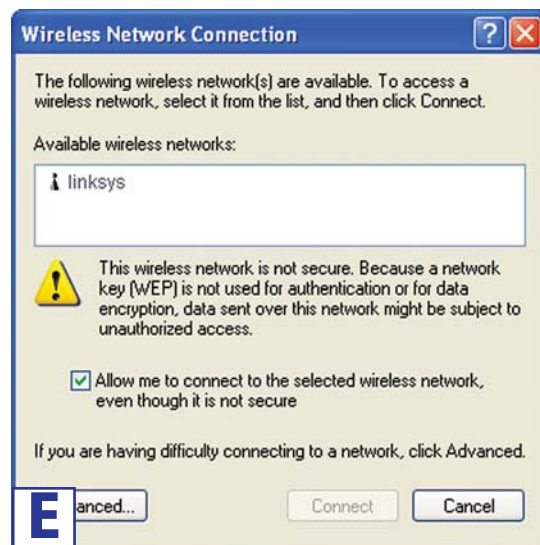

Note: Steps E and F are the instructions and screenshots for Windows XP with Service Pack 1 installed. If you have not installed Service Pack 1, select the network you want, and click the **Connect** button. If the network has WEP encryption enabled, enter the WEP key in the *Network key* field, and then click the **Connect** button.

E. The screen that appears will show any available wireless network. Select the network you want.

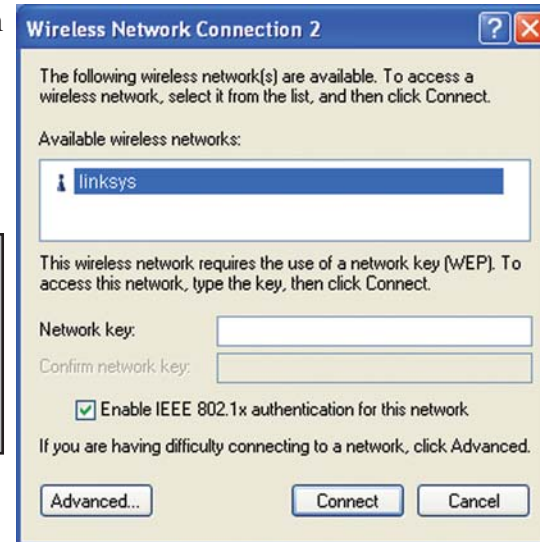

If this network has WEP encryption enabled, go to Step F.

If this network does not have WEP encryption enabled, then the screen in Figure E will appear. Make sure the box next to *Allow me to connect to the selected wireless network, even though it is not secure* is checked. Then click **Connect**, and go to Step G.

F. If WEP is enabled, the screen in Figure F will appear. Enter the WEP key of your wireless network in the *Network key* field, and re-enter it in the *Confirm network key* field. Then click **Connect**.

Important: Windows XP Wireless Zero Configuration does not support the use of a passphrase. Enter the exact WEP key used by your access point.

G. The screen in Figure G will appear if your connection is active.

For more information about wireless networking on a Windows XP computer, enter the keyword **wireless** in the Windows XP search engine.

Windows XP users: Congratulations! The installation of the Wireless-B Notebook Adapter is complete.

For additional information or troubleshooting help, refer to the User Guide on the Setup CD-ROM. You can also call or email for further support.
