Dual-Mode Cordless Phone for Yahoo! Messenger with Voice

Break away from your PC and make free or low-cost calls to your friends using Yahoo! Messenger with Voice! The Linksys Dual-Mode Cordless Phone for Yahoo! Messenger with Voice comes with the handset, and a USB Base Station that plugs into your computer. Dual-Mode capability lets you choose whether to make free or low cost calls with the Yahoo! Messenger with Voice application running on your PC or over regular telephone line. Just select who you want to talk to from your Yahoo! Messenger contact list on your handset and when your contact answers, talk away!

The phone supports Yahoo! Phone Out so you can talk with friend on their regular phones and will ring, displaying the Caller ID on the handset's screen when you have an incoming call with the Yahoo! Phone In service.

The Linksys Dual-Mode Cordless Phone for Yahoo! Messenger with Voice allows you to choose to make free calls to other friends using Yahoo! Messenger with Voice or over your existing standard telephone line. You'll get the convenience of a cordless phone and all its features, plus the high-quality voice reception, without being tied to your computer.
