

**LINKSYS®**

**WRT32X**

**Disclaimers and Legal Information:**

\*"Killer reduces peak ping by up to 77%" calculated from the reduction of peak ping rate from 74 milliseconds (ms) to 17 ms when using the Killer Prioritization Engine on the WRT32X and a Killer-enabled PC using a 10 megabits per second (Mbps) down/2Mbps up internet connection that has multiple devices consuming the 10Mbps connection.

Specifications are subject to change without notice. An active, customer-purchased Internet Service Provider broadband account is required for connection of this router and other connected devices to the Internet. Some devices may require additional wireless adapters or an Ethernet cable to connect to this router.

Maximum performance derived from IEEE Standard 802.11 specifications. Actual performance may vary, including lower wireless network capacity, data throughput rate, range, and coverage. Performance depends upon many factors, conditions and variables, including products used, interference and other adverse conditions. In order to achieve the best performance, this router must be used with a compatible AC3200-class WRT wireless device.

May require a software/firmware update available for download at [linksys.com/support](http://linksys.com/support).

The standard transmission rates—450 Mbps or 2600 Mbps (for 5 GHz) and 600 Mbps (for 2.4 GHz)—are the physical data rates. Actual data throughput will be lower and may depend on the mix of wireless products used and external factors.

## Specifications

### INTERFACES

1x Gigabit WAN port

4x Gigabit LAN ports

1x USB 3.0 port

1x eSATA/USB 2.0 port

USB/eSATA ports for sharing photos, videos, music, and files on an attached storage drive via SAMBA or FTP

### OPERATING FREQUENCY

2.4 GHz and 5 GHz (simultaneous)

### WIRELESS ENCRYPTION

WPA2-Personal

### STORAGE FILE SYSTEM SUPPORT

FAT, FAT32, NTFS, and ext2/3/4

### POWER ADAPTER

Input: 100–240V ~ 50–60Hz

Output: 12V/3A

### WIRELESS SPECIFICATIONS

- Wireless Standards with Link Rate
- IEEE 802.11ac (up to 2600 Mbps for 5 GHz§)
- IEEE 802.11n (up to 600 Mbps for 2.4 GHz/up to 450 Mbps for 5 GHz§)

### MINIMUM SYSTEM REQUIREMENTS

- For Router Setup:

Latest versions of Google Chrome™, Firefox®, Safari® (for Mac® or iPad®), Microsoft Edge, or Internet Explorer® versions 10 or newer

- User Documentation is also available at: [www.linksys.com/support](http://www.linksys.com/support)
