

Wirelessly brings your digital music collection, streaming music services, and Internet Radio to the living room

The Linksys Wireless-B Music System lets you bring the digital music stored on your computer to your Home Entertainment Center, without running cables through the house. Using a wireless connection, the Music System finally frees your digital music collection from those little computer speakers to play in full glory through your stereo system.

The Wireless-B Music System sits by your home stereo and connects to it using standard consumer electronics cables. Then it connects to your home network by Wireless-B (802.11b) wireless networking, or if you prefer, it can be connected via standard 10/100 Ethernet cabling. Using the included remote control and the built-in LCD menus, you can browse your MP3 or WMA formatted music collection on your home PCs by title, artist, album, genre, or playlist. Or, access the Rhapsody Digital Music service (free trial included) to listen to over 450,000 songs on demand, create custom playlists and radio stations, and burn mixed CDs on your PC. You can also tune into thousands of Internet radio stations from over 100 different countries around the world.

Choose the music you want, and let the Wireless-B Music System play it through your living room stereo. Or, with its small but powerful detachable speakers, it can also act as your portable digital music "boombox". Carry the Music System around the house and have access to your entire music collection, and your favorite Internet radio stations, anywhere within range of your wireless network -- the kitchen, den, even out on the patio by the pool.

Let the Linksys Wireless-B Music System bring digital music out into the living room for the whole family to enjoy.

Connects your stereo system to a Wireless-B (802.11b) network

Listen to your digital music collection, streaming music services, and Internet Radio in the living room

Select songs, lists, and services on the built-in display with the easy-to-use remote control

Includes high-quality detachable powered "bookshelf" speakers

Wireless-B Music System
